alone in getting
rid of Bad Breath

**Hours Of
Fresh Breath
After A Single Use**

American Dental Association News
- June 2, 1997
"As the general population gets to know more about the source of malodor, you're going to see a sharp rise in the percentage of people who clean their tongue. And the toughest part is to get as far towards the back of the tongue as possible."

**ORAcare™
Interdental Brush**

Efficient cleaning in interdental spaces and promotes a clean mouth and fresher breath

A Beautiful Smile Begins With Smyles™

The Simple 30 secs
RINSE that keeps
FRESH BREATH
round the clock,
reducing
BAD BREATH

With **Treox™**
Stabilized Chlorine Dioxide
With Zinc & Tea Tree Oil
PLUS
Cetylpyridinium Chloride

Smyles™ Speciality Mouthrinse with **Treox™** is the new revolution in breath-freshening technology. **Treox™** uses *oxygenating action* to neutralize the odor-producing VSCs (volatile sulfur compounds), effectively reducing BAD BREATH, leaving your mouth with a bubbly fresh and clean taste...
